

SPINNERS

Spinners are so much fun! Use these spinners to observe color theory in real time as the colors blend together and you spin away.

- Color in your circles any way you wish.
Experiment with different designs and patterns.
- Cut out your circles.
- Stick the first circle on the cardboard.
- Cut out the cardboard circle.
- Stick the second circle on to the back.
- Make two small holes (approx 1cm apart, if not 8mm) on either side of the center of the circle – the templates have markings for this.
- Thread string through and tie. **NOW SPIN!**
